

Audiovisual and Integrated Experience Association

Map Your Professional Development in AV

Whether you are new to the AV industry, prepping for a certification exam, or adding a new specialization, our technical training can help you reach your goals.

HOW TO USE THIS CHART

General knowledge courses are sequenced from industry novice to CTS exam candidate.

Depending on experience, you may not need to complete all general knowledge courses before moving to specialized knowledge.

In the specialized knowledge column, you can fill in any knowledge gaps you may have, or explore something new to help you reach your goals.
